Section 5 Our Graphics Charter	p. 26

Introduction

WE ARE DIAM.

Our company, which is over 45 years old, is now an international group thanks to healthy customer growth, and our teams' DNA and pioneering spirit; that is 2,400 people in 24 countries.

From New York to Melbourne and from Paris to Shanghai, our entrepreneurial culture has successfully attracted the skills we need to serve brands.

And we've gone further still! We've capitalised on our strong foundations and the loyalty of our customers to create and foster DIAM, the brand for which we are all ambassadors.

This booklet is aimed at every one of us. It translates all the things that make up our identity and reputation into words and pictures, to standardise and assert our discourse.

It has also been compiled to consolidate our Brand which is growing rapidly, both in terms of its geographical expansion and its range of services.

Happy reading!

1

DIAM is a living and breathing entity, and is constantly evolving to suit customer requirements, market trends, and our newly acquired skills and innovations.

In the face of such constant change, DIAM must express itself briefly, to the point, and in unison when addressing its customers, prospective customers, and partners.

DIAM is asserting itself and refining its discourse.

Section 1 | Our Brand

Our purpose? One and only obsession.

To create the perfect match between a Brand and its consumers.

Our DNA? Unique. Absolutely

We are committed entrepreneurs, close to our customers and attentive to what they have to say. We tackle every project with the same high standards in matters of quality and efficiency. And we have just one goal: that of securing the attention of consumers by giving them an unforgettable brand-based experience.

#Worldwide Global presence in **24 countries**

#Excellence A wide range of **unequalled skills**

#FullServices A comprehensive range of services deployed **from A to Z**

#Sustainability At the heart of what we do since 1973

What do we have to offer? Retail and merchandising solutions. Lots of them. Everywhere.

Bearing in mind that they all come with their own constraints, we provide our customers with ambitious, innovative, efficient and environmentally responsible, turnkey retail and merchandising solutions for all their projects. And we do so in 24 countries, to cater for all their global requirements, and in a wide range of sectors: Travel Retail, Department Stores, Selective Distribution, Mass Distribution, Shops in Shops, Pop-Up Stores, Free Standing Stores...

In other words, we provide sustainable, made-to-measure solutions worldwide, to create unique brand-related experiences.

WE ARE DIAM !

OUR MISSION

At the heart of everything we do since 1973.

DIAM is an international group and **brand partner** all over the world. We create, develop and install Retail & Merchandising solutions to **enhance the consumer's experience in points of sale.**

- We ensure **local** proximity, teams devoted to customer service, expertise and global synergies
- We provide Merchandising solutions for all types of distribution
- We deploy Brand projects from A to Z, including consulting, design, production, installation, and in-store services

And it is also strongly committed to **quality and environmental responsibility.**

OUR APPROACHES

Such as Kickstarter, DIAM SafetyDay and Sustainable by DIAM... All our approaches serve to promote our in-house activities, and extend the influence of innovation and responsibility-based initiatives among our customers.

DIAM KICKSTARTER
listen . develop . enhance

Sustainable
by DIAM

Section 2 | Our group

OUR GROUP IN FIGURES

Created in: 1973

Number of employees in 2019: 2,400

Sites: 30

Countries: 24

Women: 44%

Men: 56%

Number of customers: 900 loyal and long-standing brands

Number of projects a year: 300,000

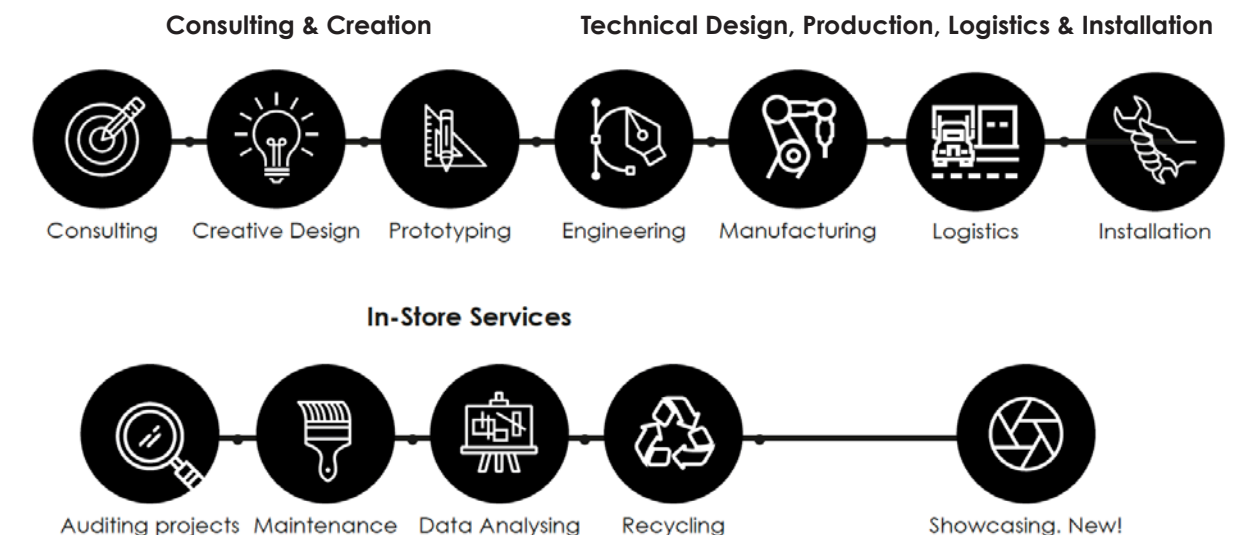

Number of point of sale installations a year: over 100,000

Our offer? A to Z

Our line of business: Retail

1. Consulting & Creation
2. Technical design, Production, Logistics & Installation
3. In-store services

For physical and digital solutions:

DIAM IS MANIFOLD:

DIAM is the group's umbrella brand, its parent brand. This umbrella brand hosts the group's sub-brands, all of which are high-value brands (in terms of image and meaning for customers), including the following brands:

DDC

DIAM Display China.

D3

DIAM in the USA.

Fieldflex

Our Brand and the name of certain subsidiaries that provide DIAM Group installation and service solutions.

Prugent DIAM

Both our Brand and the name of certain entities that provide DIAM Group layout solutions.

CONEX

Our Brand and our entity which provides DIAM Group digital development project solutions.

REM3RCH

the Brand and planogram management tool developed by us.

MRC

the Brand and the name of certain companies that provide the Group's consumer secondary carton and set-up box activity.

DIAM PACK

An umbrella brand we use to promote the primary packaging and secondary packaging (ultra luxury boxes) activities of our DIAM PACK division, which is also the name of several entities, namely in Asia.

DIAM Color

Our Brand to promote the China, Lorris and Les Mureaux colour tester caps and factice activities.

retail3D

The Brand and retail, strategic and operational consulting development entity, as well as architecture-related activities (Creative Design & Technical Design). The group has several subsidiaries (subsidiaries, companies, legal entities), which are not to be confused with the different brands:

Most of the subsidiaries are called DIAM (DIAM UK, DIAM Italy...) Some of them have different names for historic reasons (D3, DEHK, DDC...)

Most of our shopfitting entities have regained the brand name «Prugent».

They are: Prugent DIAM Europe (an entity in Lannemezan), Prugent DIAM Portugal, Prugent DIAM Asia.

Some have been given the name of the brand: this is the case of CONEX, retail3D (...)

In terms of external communication, the most important thing is to respect the Brands that convey our image and activities, and avoid using the names of subsidiaries.

Section 3 | Our signature

#RetailBeauty

Since 1973

(Retail Beauty)

Provides the context for our solutions, which are not only industrial but also especially designed for the retail sector.

(Since 1973)

Our company is strong, reliable, and respectful of traditions, based on a strong bedrock of expertise and experience.

2

We are all DIAM ambassadors. The emergence of social networks, our contact with customers and prospective customers, the installation of our pop-up stores, corners, boutiques... all our actions, behaviour and rhetoric are different ways of communicating on DIAM's behalf. So yes, we are undoubtedly DIAM ambassadors, every day.

**But how can we standardise DIAM's image all over the world?
Here are a few ideas...**

Section 4 | Our Good Practices

1 PROJET = 1 PHOTO

One of our greatest assets is the content we are capable of creating when we have as much information as possible regarding projects.

FOR EACH PROJECT, it's important for us to take and submit HD photographs, which can be used to enrich our picture library and illustrate our communication media (presentations, social networks...) and promote our skills.

OUR EXTERNAL PRESENTATIONS

1. Use the PPT template
2. Always observe our graphics policy (below)
3. Begin your presentations with the title slide and #RetailBeauty tag
4. End your presentation with the slide that promotes our 3-point retail vision, with YOU (the customer), WE (DIAM), THEY (the end consumer)
example: YOUR CHALLENGE, OUR EXPERTISE, THEIR EXPERIENCE
5. Be brief. A lovely picture and a few words say so much more than wordy discourse

Where to find these elements:
Safebox & My DIAM

OUR LINKEDIN NETWORK

If you use social networks such as LinkedIn, then follow us! @DIAMGroup

When it comes to standing out from the crowd, strength comes in numbers:

1. In your profile, and regardless of the company you work for within the group, make sure you select DIAM Group as your employer
2. In your posts, systematically tag @DIAMGroup
3. Use the #RetailBeauty tag in your texts
4. Encourage customers to do likewise when they post messages that include our creations
5. Potential list of #hashtags depending on the subject:
#DIAMGroup #RetailBeauty #Retail #Merchandising #Brand #Design #CustomerExperience #ShoppingExperience #InStore #Innovation #Digital #Sustainability #Teams #TeamWork

Section 5 | Our Graphics Charter

Our graphics charter includes and graphically translates our world and all our corporate values. It is fundamental to all our communication.

This document contains the fundamental rules for using the graphic signs that make up DIAM's visual identity. DIAM's graphics charter aims to define the rules for using the logo, texts and images in all correspondence.

To preserve our credibility and visual consistency, be sure to observe the following instructions.

Our new visual identity embodies the essential link between all the actors that make up our community, and ensures it is easily recognised.

Our ability to observe the directives contained in this document will determine the strength and coherence of our image.

THE LOGOTYPE AND RULES GOVERNING ITS USE

This chapter includes the different versions of the logotype and how they should be used.

The construction of the DIAM logo (pictogram + typeface)

DIAM, THE NAME

The acronym itself comes from Diffusion International d'Articles Manufacturés which translates as International Distributor of Manufactured Articles.

The pictogram

The triangle, which symbolises the original injection point that bears witness to skills that embody the best of the artisanal and industrial world, has been enlarged, modernised and slightly rounded, to express our commitment, flexibility and creativity.

RULES GOVERNING USE

To ensure the logo remains legible, it is important to observe the minimum authorised size.

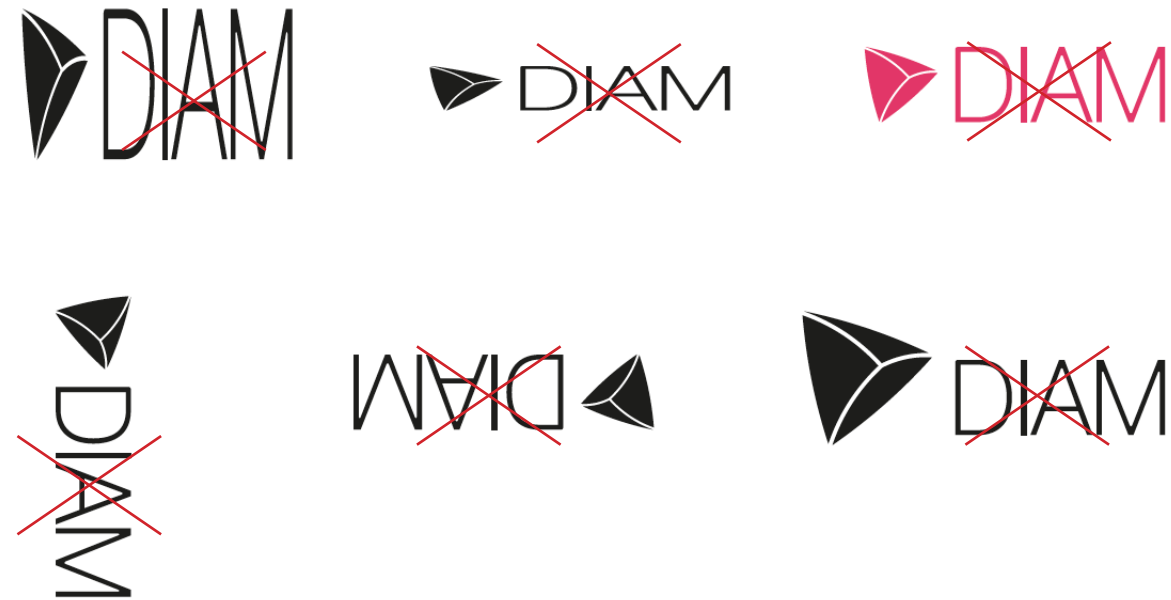

The protection zone:

Nothing (neither line, text nor image) must be positioned too close to the logo.

PROHIBITED USES THAT ARE NOT TO BE REPRODUCED

The logotype must be reproduced without modification, using the files provided by the DIAM communication department.

RULES GOVERNING THE USE OF THE NAME IN A TEXT

The name DIAM must be entirely written in capitals, as in the following example.

DIAM is an international group working in partnership with brands all over the world, to enhance the consumer's experience at points of sale thanks to unique retail solutions.

DIAM offers a comprehensive range of unequalled services and solutions, to fulfil all its customers' dreams.

DIAM supports its customers locally, by giving them the benefits of its global expertise and synergy.

DIAM boasts an unequalled sense of quality and commitment that puts it in a league of its own, and renews its commitment to its environmental responsibility policy day after day.

THE LOGOTYPE ON COLOURED BACKGROUNDS

The black logo can be set against a coloured background, provided the colour is light enough for it to be perfectly legible.

The white logo can be set against a coloured background, provided the colour is dark enough for it to be perfectly legible.

THE LOGOTYPE ON PHOTOGRAPHIC BACKGROUNDS

If the logotype is set against a visual image, it must be positioned in an area of minimum disturbance (and be written in black or white) to ensure it is perfectly legible.

OUR GRAPHIC WORLD

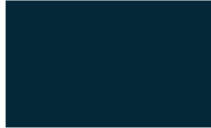

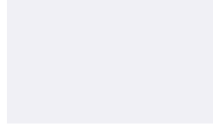

This chapter presents DIAM's graphic world. It is made up of colours and typefaces that are specific to our identity.

This graphic landscape applies to all corporate and internal communication media. It is essential to observe its directives to ensure the brand is perfectly legible.

COLOURS

DIAM's colour range includes 20 colours.

These colours can be applied to any corporate and internal communication media: printed documents, desktop documents, online documents and videos.

TYPEFACES

DIAM has its own specific typefaces, which must be used for all communication media.

The typeface used for desktop media (PowerPoint and Word samples) are the system's own fonts installed by default on your computer workstation.

The typeface used for digital media is a font suited to screen reading.

DESKTOP TYPEFACES

CENTURY GOTHIC

Century Gothic is a sans-serif typeface released by Monotype Imaging in 1991. **It is also an eco-friendly font.**

In 2010, the University of Wisconsin-Green Bay switched to Century Gothic as it uses about 30% less ink than other typefaces.

It can be used both for titles and ordinary text. It comes in two boldtypes and two styles.

Regular

Italic

Bold

Bold italic

TYPEFACES FOR PRINTED MATERIAL

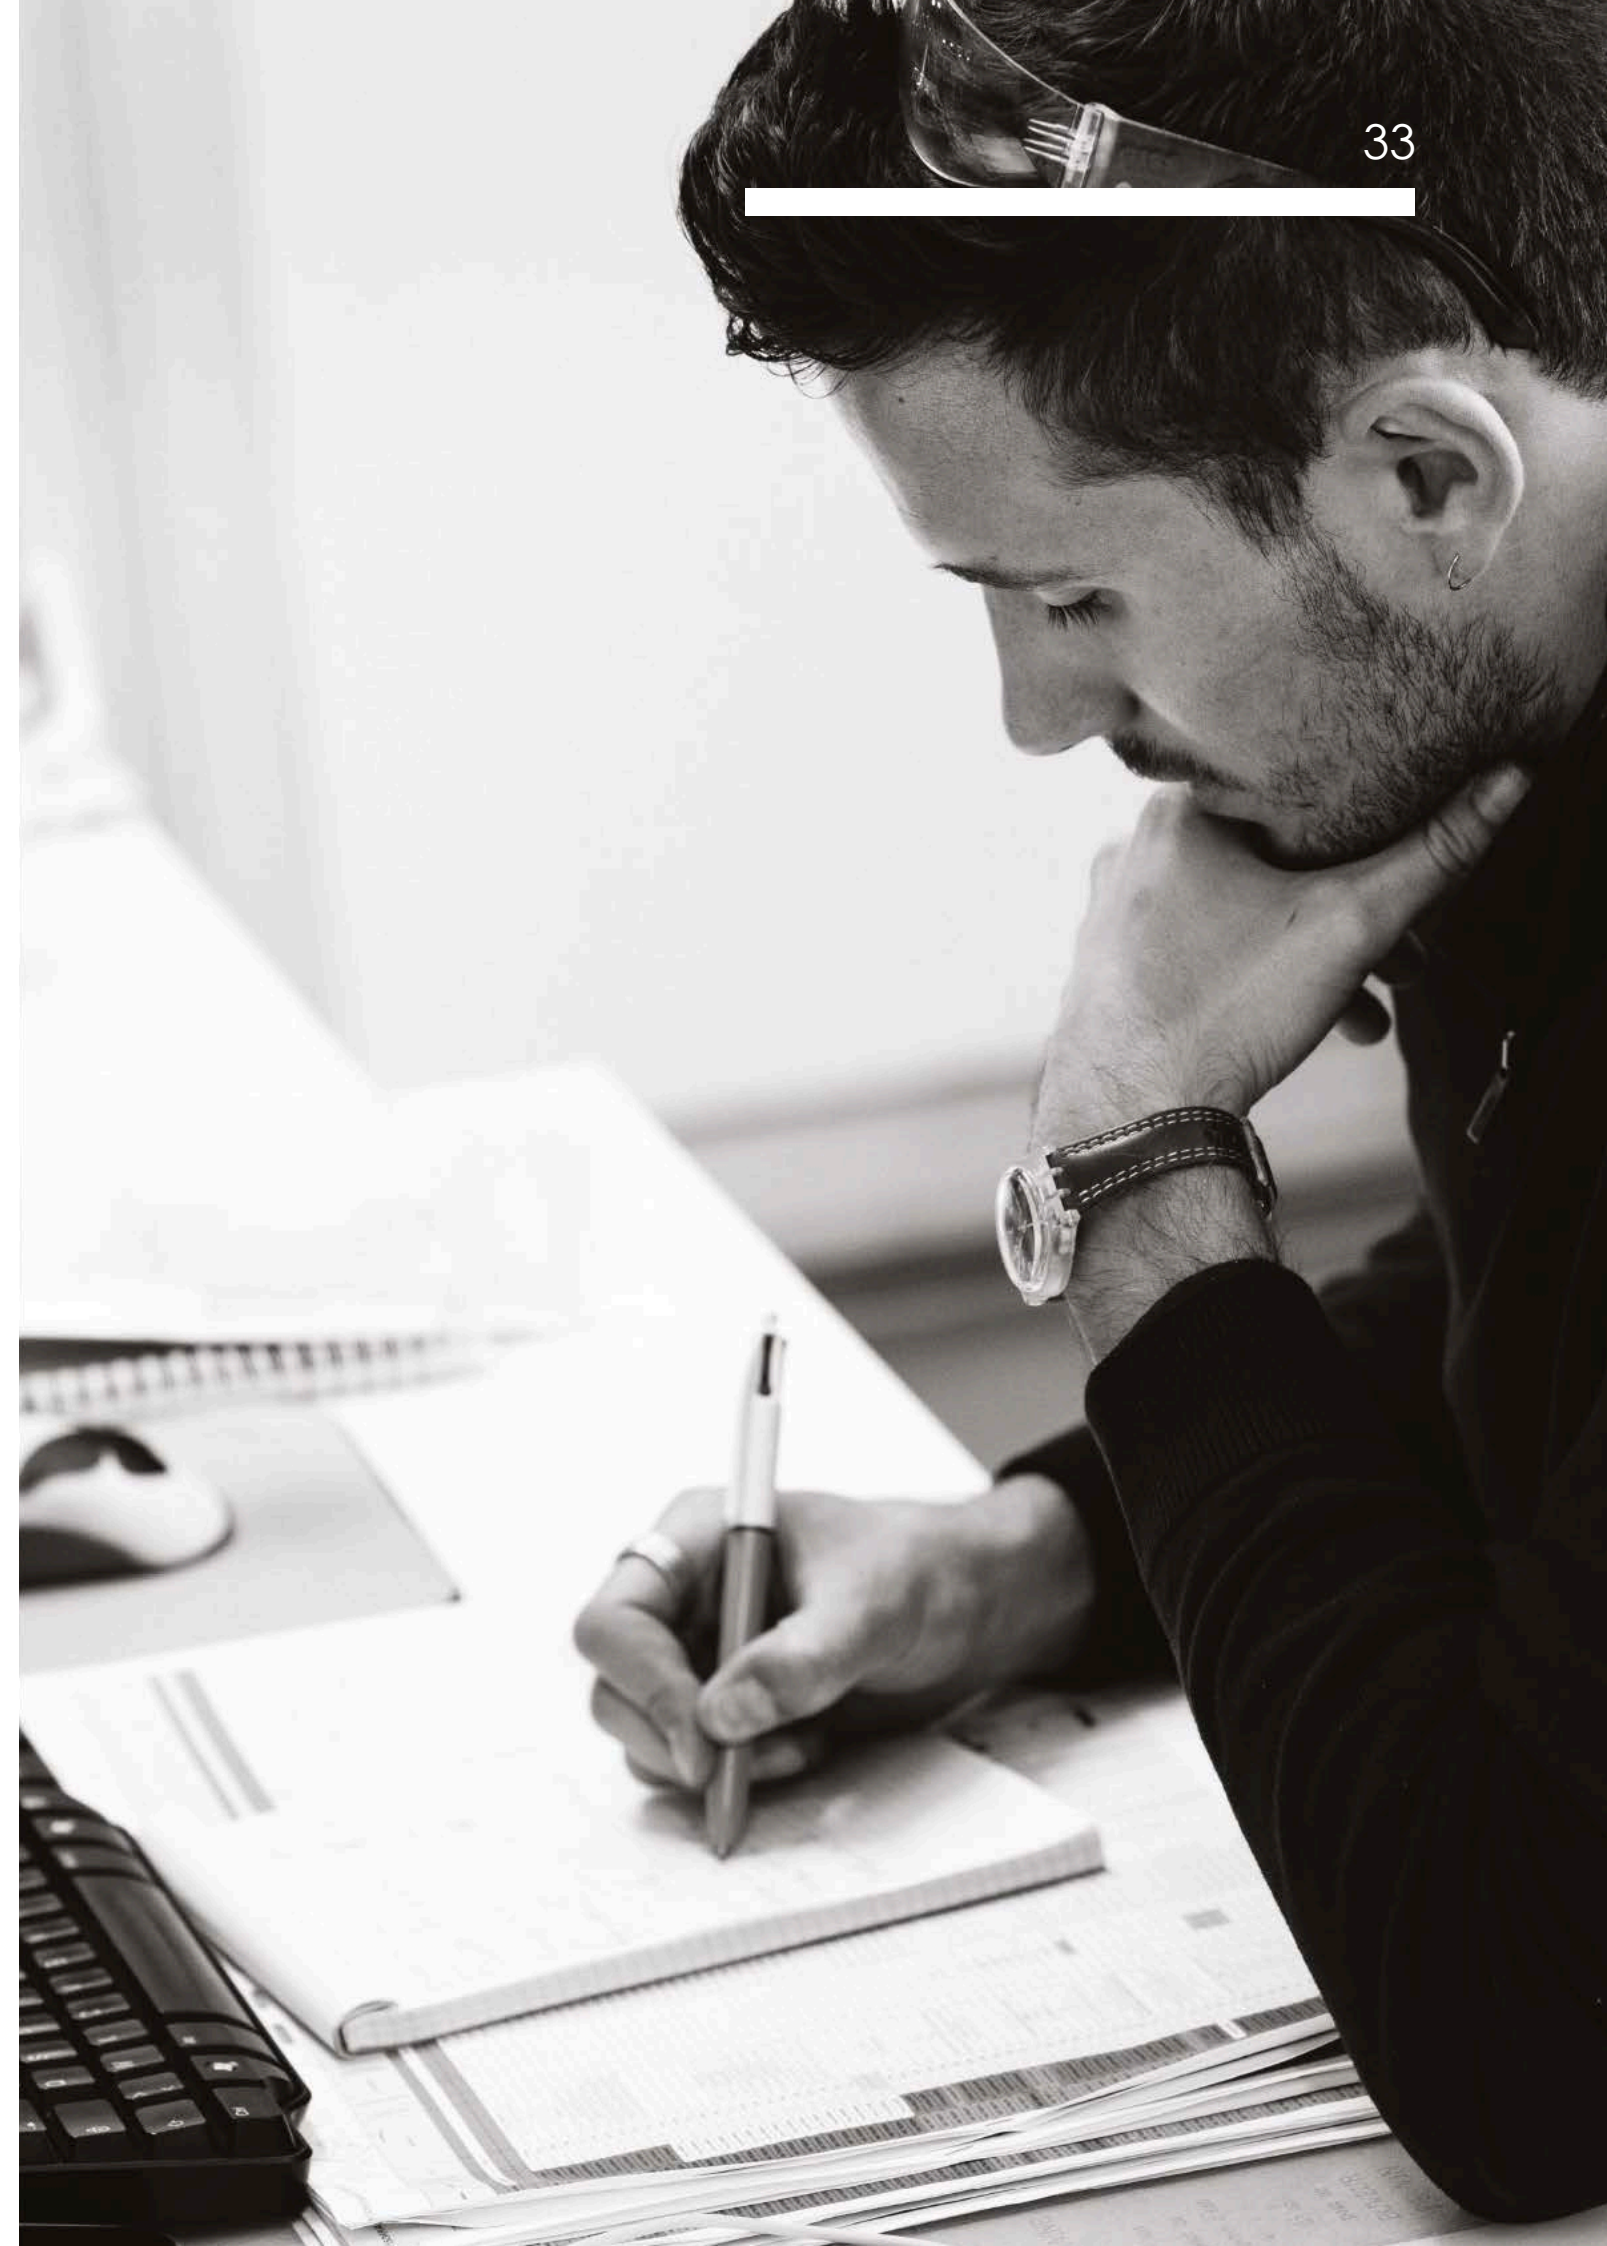

The AVENIR NEXT CONDENSED typeface should be used for all your printed communication media.

Ultra light

Italic

Medium

Demi Bold

VISUALS

From now on we'll be using images rather than texts in all our communication media.

We'll be using HD photos that will mostly be made to cover a whole page.

In-house visuals, namely photographs of teams, jobs, factories and machines must always be in black and white.

Conversely, visuals of customers, and namely photos of projects and evening events must always be in colour. Choose visuals (both when taking them and when using them) that include people, to «breathe life» into the Retail Experience concept.

«A picture is worth a thousand words»
Confucius

STATIONERY AND DESKTOP TOOLS

This chapter presents the stationery and desktop media at your disposal.

This chapter also includes the rules that must be observed concerning your e-mail signature.

Headed paper

Blank cards

Business cards

Envelopes

All of the above are at your disposal, and can be found directly on our online «Vistaprint» order platform. (for European entities only) <https://diaminter.go.customprintcenter.fr/>

For any questions, please contact the communication department.

All these documents are ready to be used and printed.

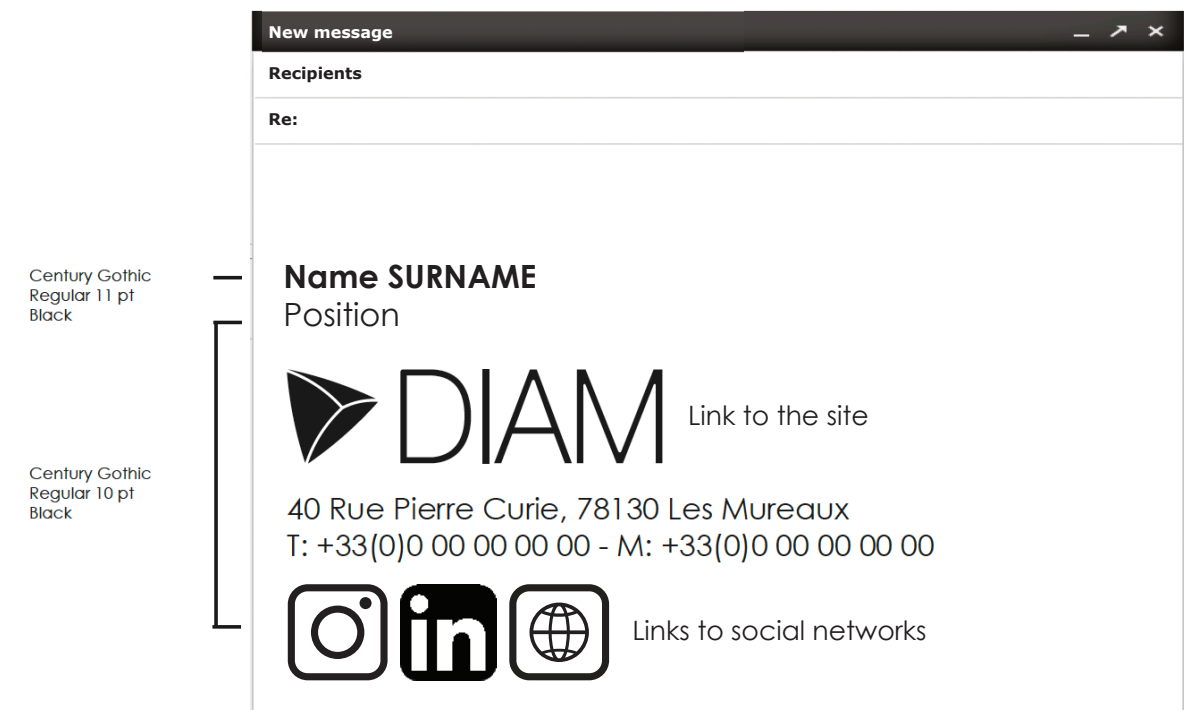

Press release examples

Are directly managed by our press officer.

PowerPoint templates

Are available from the group's external communication department, as well as via the «group sales tools / presentations» tab in Safebox.

MAIL SIGNATURES

INTERNAL COMMUNICATION

While communicating internally, the logo can remain the same (nameplates, posters...)
